About This Game

The Girl on the Train - a short kinetic visual novel from NewWestGames

Follow the story of Hana, a high school delinquent who, after a rough day, notices a gorgeous, tall, foreign looking girl on her train ride home.

Who is this girl? Why has she never seen her before? Hana hatches a plan to get to know her, but her journey teaches her a lot more than she expected.

Short romantic novel!

Originally part of a game jam, The Girl on the Train has been tidied up, with new artwork, expanded ending and many script revisions.

Features

- A cute, romantic quick read.
- Beautiful CG art
- Steam achievements!
- Trading cards!

The writing and plot are rushed. You don't end up caring about any of the characters. The characters aren't very likeable and their actions are questionable. There was a lot of potential here but unfortunately it just didn't deliver.

The h scene was appreciated but not enough for me to recommend this. There are better yuri vn's out there.. This is actually not terrible as a small erotic VN, especially when you consider the price. It's about an hour long and has no player choices, but the story was a bit better than I expected and the art is servicable - it could even work as a basis for a longer plot, as both main characters had some intriguing qualities and hinted at interesting backstories. Such as it is now, it's cute enough to justify its existance and that 1 dollar it asks from you.

Although I'm not really convinced by the "screw education, I can become a camgirl" moral. That's not really an attitude that leads people into long-lasting relationships and personal success. :P. This game has some of the ugliest art I've seen for a visual novel. The music is horrendous and none of the characters engaged me in the slightest. There are far better yuri and kinetic visual novels out there. Because it's so short, The Girl on the Train is not worth your time. Pick another.. Cute little lesbian story about 2 girls meeting on a train
. 1/10 - "censored...SKIP"

Despite the cheap price and yuri theme, I cannot recommend the Girl on the Train because it does not feel like a finished game. It took me 30 minutes to read through it (with the patch) and despite the option to "skip after choices" appearing in the options, the plot is linear. (Not that I have a problem with kinetic novels, just curious as to why this wasn't removed before release.) The characters were the primary turn-off for me, as they lacked personality and were reduced to bare boned cliches. The reader was repeatedly denied information about said characters that would have made the game more interesting, using shortcuts like "they talked for a long time" without actually saying what they talked about or having the "antagonist" initiate fights without any real reason.

If you are only interested in the H-patch, it's decent, but not good. 3/10. For the current price tag this was an okay kinetic visual novel. It's very short so don't expect some sort of plot twist or character development; there's the adult patch on the discussion board which probably makes the game feel a bit longer too (considering the adult scenes).

If you're in the mood to read something simple and quick, you could give this VN a try. Don't expect much tho.

4/10.. Great little story. Very cute. Thank gods for a patch, I guess. That one scene is a vital part of a love story. Lolz. :). I played for 0.3 hours...because I skipped from the start to end. All because when I read a few sentences, I got bored. I felt like I needed to inform everyone what this game is about. Though I don't know what to feel about it, I want to share my thoughts.

--GENERAL--

- I had no idea that this was a Yuri-themed V.N.
- I didn't read the comments nor other stuff aside from the summary, so I have a fault here. I kind of wished that it was explicitly said in the summary though. Too late. So, boo me.
- It is casual indeed. As in VERY.
- Don't expect anything guys. Don't.

--SCRIPT--

- The script was like rushed.
- The profanities were a bit forced. Sometimes, they don't add emotions well.
- Poor scripting and I already knew what would happen.

--GRAPHICS--

- The graphics is okay for the price. Very entry-level. So again, **don't expect too much. (By the way I got this at 40% off).**
- **I wish they improved more though because it also looks rushed.**
- **But for the price, it's "ok."**

--Music--

- **In general, it's FINE. Just...fine.**

--PLOT--

- **The casual perverted style. No much emotions involved.**

- **Mehhh...**

--My summary--

A delinquent small-chested girl was forced to go to school. One day, she met a blond girl with the huge front. The first gal is highly interested in her. They became friends, then got misunderstandings. They talked and banged each other.

Boom!

Happily ever after.

Very short indeed.

So don't waste your time on this game. I make better Visual Novels compared to them.

:P. play a game not read a book
